Update on the L.E.T.G. law enforcement reporting and data programs

We have been up and running with both office and now mobile in the car for a few months this is going good and as "**painless**" as possible.

I was able with the assistance of Rod and also the Houston County IT to use one of the older tuff book computers we purchased with the equipment grant to also connect into the internet based program from home.

This took the instillation of a "FIXED STATIC IP ADDRESS" that Acentec had to install at the home.

There is a \$5.00 a month fee associated with this.

This is VERY useful to access the system 24 hrs a day to stay on top of things and also to be able to access this from home and is very much needed with this small department.

I am requesting to have \$5.00 a month added to my cell phone reimbursement to cover this additional cost.

If there is anything further I can assist you with please feel free to contact me anytime.  
Thanks!

Sincerely,

A handwritten signature in black ink, appearing to read "Robert W. Schuldt".
